

Never Clean Your Pet's Teeth Manually Again!

Sangre de Drago (Blood of the Dragon)

Sangre de Drago reigns among the most legendary botanicals from the Amazon Rainforest. Ethnobotanist Nicole Maxwell, gashed her arm with a machete while chopping her way through the jungle. The application of Sangre de Drago sap gave immediate relief, stanching the bleeding and helped her to heal very rapidly. She reported that Rainforest natives use the sap both internally and externally. Science has since validated its wound healing properties. **This amazing sap is over 90% pure anti-oxidants and is used to help with digestive pain, improve heart health and stimulate healing.**

Now comes a new use for this miracle. An amazing side benefit is that when applied topically to the teeth and gums it not only heals gum disease - **Sangre de Drago actually removes tooth tarter!** My clients and I have been testing it on hundreds of dogs over the past 6 months with tremendous results. We start with coating the teeth and gums with the sap twice a day for about a week. Here is a testimonial from one of those clients:

10/24/03 - Hi Kay, I told you I'd write to you about the success I had with the enzyme stuff for my dogs teeth. I put a drop on my finger and rubbed it on Muffie's teeth. I used 3 drops or so on each side of her mouth. I did this routine for 6 days, twice a day. After 2 days I saw that the product was dissolving the tarter. It did not totally remove the tarter by itself, but it softened it so nicely that I was able to brush it off to a great extent. The areas that didn't brush off had softened so that I could use a dental pick to scrape off the remaining tarter. ... I took my dog to the vet yesterday and when he looked at her teeth, he was amazed at them being so clean. I told him about the product and he was VERY interested in learning more about it. Could you please send me the product name and any literature you have on it and I will see to it that the Dr. and his clinic gets the info. Sounds like a potential customer for you! Thanks, JoAnn Keller, Prescott, AZ

Sangre de Drago is available in one ounce and eight ounce bottles. For more information or to order Sangre de Drago and other Amazon Herbs please call me or visit our Amazon Herbs website - **www.4AmazonHerbs.com**
